Senior Solar Technician

Job Summary

The Senior Technician plays a pivotal role in our projects, participating in all installation phases, potentially serving as a crew leader, and occasionally working independently on site assessments, system repairs, and maintenance. An OSHA-10 card is a prerequisite before beginning any construction work. The technician must be capable of clear on-site communication and problem-solving to maintain optimal performance in residential and commercial solar installations.

About US

Better Together Solar is a solar construction business in Cleveland, OH, specializing in solar PV systems for commercial, residential, and nonprofit and government clients. With a keen understanding of site-specific requirements in NE Ohio, we are currently expanding and seeking several Solar Technicians to join our team.

Job Responsibilities

- Installation of photovoltaic (PV) systems according to codes, standards, drawings, schematics, and instructions.
- Identifying installation locations with proper orientation, area, solar access, or structural integrity for PV arrays.
- Determining materials, equipment, and installation sequences for maximum efficiency.
- Offer technical guidance to junior technicians in order to raise the overall skillset of our team.
- Performing routine PV system maintenance on arrays, inverters, batteries, power conditioning equipment, safety systems, structural systems, weather sealing, or balance of systems equipment.

Minimum Qualifications (MUST)

- Have experience in the solar construction industry;
- Be comfortable with heights, handling ladders and scaffolding;
- Know about and safely use hand tools and electrical test equipment;
- Be responsible and punctual with a valid clean driver's license;
- Be able to obtain OSHA 10 and OSHA 30 credentials;
- Pass a drug test

Preferred Qualifications (Should)

- Be comfortable commissioning solar arrays and troubleshooting inverter error codes;
- Understand system performance metrics and various data monitoring schemes;
- Possess a sense of humor and resourcefulness;
- Must take initiative in manager's absence;
- Pursue NABCEP PVIP Credential.

Compensation and Terms

BT Solar values employee growth and wellbeing. We offer competitive salaries and comprehensive benefits including Health, Vision, and Dental Insurance, generous PTO, and a flexible work environment. We're launching a certified apprenticeship program, offering team members invaluable opportunities for accredited professional development. Full-time position, 25+ Hours per week, based in our Cleveland, OH office.

Disclaimer: This job description describes the general nature and level of work being performed. It is not an exhaustive list of all duties, responsibilities, and skills required of personnel so classified.
